OF IT**

WE TAKE CARE OF IT

We are an office cleaning company that takes care to get things right, right away.

You deserve to have cleaning addressed as professionally as you work, which is why we invest heavily in the people we work with.

We offer Account Managers so that both our customers and cleaners have a direct point-of-contact 24/7. A person who ensures communication is clear,

responses are immediate, resolutions are genuine, and support is always available. That's our difference.

There's a direct correlation between our cleaners' happiness and your site satisfaction. So, we take care of both.

Resolution and responsiveness are rare in this industry. To us, it's common sense.

TAKING CARE OF PRODUCTIVITY

We have efficient systems and processes in place, so that your systems and processes run smoothly too. Our closed-loop communication cycle means everyone can focus their energy where it matters most.

THE CMOS CYCLE

“WE SOLVE 95% OF A PROBLEM BY GETTING THE COMMUNICATION RIGHT.”

HARVEY FRAME
CMOS CEO

TAKING CARE TO BE WORLD-CLASS

We're an ambitious company creating world-class customer service and working environment. We're proud to have a 100% SiteWise health and safety rating 2019, and care as much for our cleaners as we do our clients.

TAKING CARE OF THE PLANET

We see our role not only as cleaners but as environmental champions too. From centralised recycling pods to compost worm farms, whatever ambitions and initiatives you have as a business, we're keen to help.
